Report description:

The demand for digestive remedies in Estonia in 2024 remains stagnant, with some subcategories experiencing negative growth. The category continues to face saturation, with sales driven mainly by fluctuations between subcategories rather than any major innovations. Digestive remedies remain a smaller segment in the overall OTC market in Estonia, with lower demand than vitamins, dietary supplements, and analgesics. One of the most popular products in this segment, digestive enzymes like Mezym, ar...

Euromonitor International's Digestive Remedies in Estonia report offers a comprehensive guide to the size and shape of the market at a national level.
