Report description:

The high temperatures recorded in recent years have continued to impact cases of digestive discomfort among Peruvians. The most common cases of diarrhoea are due to food decomposing and the spread of bacteria in food. This occurs in a country where 57.3% of the population has a refrigerator in their homes. This has impacted sales of products, including bismuth and magnesium hydroxide, which are largely used to deal with these ailments. The best performance has been from brands Bismutol (Teva Per...
