Report description:

The paediatric consumer health market in Switzerland is expected to remain flat in current value terms in 2024, as Swiss parents generally prefer to consult healthcare professionals before using any medical products for their children. Self-medication is typically reserved for minor ailments that are judged not to require medical advice. Few categories within paediatric consumer health are particularly popular, as many parents are sceptical about pharmacy-only products and are cautious about pot...

Euromonitor International's Paediatric Consumer Health in Switzerland report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. Forecasts to 2028 illustrate how the market is set to change.
