### **Report description:**

Demand for sleep aids in Slovakia is expected to rise in 2024, although at a slower pace than in 2023. Elevated stress and anxiety levels, triggered by the ongoing war in Ukraine and the rising cost of living, along with the excessive use of digital screens, have negatively impacted sleep patterns across the population. While an improving economy may contribute to a gradual easing of demand, sleep disorders are becoming increasingly prevalent across all age groups.

Euromonitor International's Sleep Aids in Slovakia report offers a comprehensive guide to the size and shape of the market at a national level.
