### **Report description:**

Wearable electronics in Brazil continued to show resilience in retail volume terms in 2023, even amidst economic uncertainty and inflationary pressures, and solid growth is set to continue in 2024. Despite a turbulent economic landscape, the category has managed to thrive due to its strong appeal to consumers seeking health and fitness solutions. Smart wearables and activity watches have remained popular, particularly amongst those interested in monitoring physical activity, sleep patterns, and...

Euromonitor International's Wearable Electronics in Brazil report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.

Product coverage: Activity Wearables, Smart Wearables.
