Report description:

Weight management and wellbeing is small in Sweden compared to categories such as sports nutrition, vitamins, and dietary supplements. While obesity is a major health issue in Sweden, consumers typically try to battle their weight problems by other means, including taking up sports, taking care of what - and how much - they eat and drink, and experimenting with different diets. These methods are generally considered to be more natural and efficient than dedicated weight management products. As ...

Euromonitor International's Weight Management and Wellbeing in Sweden report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. Forecasts to 2028 illustrate how the market is set to change.
