Construction Materials in Italy

Summary

Construction Materials in Italy industry profile provides top-line qualitative and quantitative summary information including: market size (value 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- The construction materials market consists of cement, aggregates, and bricks.
- The Italian construction materials market recorded revenues of \$4.2 billion in 2023, representing a compound annual growth rate (CAGR) of 4% between 2018 and 2023.
- The aggregates segment accounted for the market's largest proportion in 2023, with total revenues of \$2.4 billion, equivalent to 56.6% of the market's overall value.
- According to ISTAT (Italian National Institute of Statistics), Italy's GDP growth rate would fall to 0.8% in 2023, from 2.5% the previous year. This economic stagnation had a direct influence on the construction industry, as lower economic activity lowered demand for new construction projects.
