Report description:

Processed fruit and vegetables in South Korea is expected to see negligible retail volume growth and slightly stronger current value growth in 2024. However, performances are set to vary across categories. Due to macroeconomic factors such as domestic and global climate change, and supply chain issues, the prices of fresh fruits continue to rise. As a result, many consumers are opting to purchase packaged fruit instead of expensive fresh fruit. This is expected to lead to particularly strong ret...

Euromonitor International's Processed Fruit and Vegetables in South Korea report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
