Report description:

The effects of inflation and the general economic crisis are still evident in Colombia in 2024. This is reflected in an increase in current value growth across categories within cooking ingredients and meals. However, many categories are also experiencing a contraction in retail volume sales, which is mainly due to the reduced spending capacity of many local consumers and the effects of legislative trends and evolving trends. While prices were still higher than average for some categories, infla...

Euromonitor International's Cooking Ingredients and Meals in Colombia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
