### **Report description:**

Cooking ingredients and meals has seen growth in current value and retail volume terms in 2024. While in 2023 inflation remained high, in 2024 it started to stabilise, which resulted in slower price growth and provided a boost to volume sales. Despite this, there have been some categories like edible oils that have continued to see price fluctuations due to a shortage of raw materials, transportation difficulties, dry weather and other external factors. These factors had a particularly significa...
