Report description:

In 2024, high inflation in Turkey continued to significantly impact consumer purchasing habits in the cooking ingredients and meals landscape. This was particularly evident in the increased price sensitivity that affected retail volume sales, leading to a surge in the popularity of discounters and private label products. Branded goods responded by launching frequent discount campaigns, promotions, and deals. Moreover, many brands introduced smaller pack sizes, a strategic move aimed at boosting...

Euromonitor International's Cooking Ingredients and Meals in Turkey report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere.
