Report description:

Edible oils is set to see retail volume sales stagnate in Spain in 2024, while continuous price increases for olive oil are expected to support current value growth. The olive oil subcategory has faced high prices due to low production, though the numbers for 2024 are expected to improve compared to the previous year, thanks to a rainy March in Spain that favoured the harvest. Despite the strong tradition of olive oil consumption in Spain, the unprecedented growth in unit prices, which have more...
