Report description:

During 2024, sunflower oil remained by far the most common type of vegetable and seed oil available in Ukraine. While some other categories of vegetable and seed oils such as corn oil and soy oil are widely available, unit prices were far higher. While the price of these oils rose further, the average unit price of sunflower oil fell making the product more appealing.

Euromonitor International's Edible Oils in Ukraine report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2028, clearly indicating how the market is expected to change.

Product coverage: Corn Oil, Olive Oil, Other Edible Oil, Palm Oil, Rapeseed Oil, Soy Oil, Sunflower Oil.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?
