### **Report description:**

In 2024, the overall vitamins market in Indonesia is anticipated to maintain current value growth, though volume sales are projected to see a more modest increase. The surge in demand experienced during the pandemic was largely driven by consumers stockpiling vitamins in a bid to safeguard their health, amid ongoing uncertainty. As the pandemic subsides, it appears that the peak growth phase has passed, leading to a shift in consumer behaviour.

Euromonitor International's Vitamins in Indonesia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: Multivitamins, Single Vitamins.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
