Steel Global Industry Almanac 2019-2028

Summary

Global Steel industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value and volume , and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- Steel market consists of the production of crude steel in the stated country or region. Crude steel production refers to the production of the first solid steel products upon solidification of liquid steel. It includes ingots (in conventional mills) and semis (in modern mills with continuous casting facilities). Crude steel also includes liquid steel, which goes into the production of steel castings.
- Market volume refers to the production volume. Market value is calculated by multiplying market volume with the production price.
- All market data and forecasts are adjusted for inflation and all currency conversions used in the creation of this report have been calculated using yearly annual average exchange rates.
- The global steel market recorded revenues of \$15,93,697.2 million in 2023, representing a compound annual growth rate (CAGR) of 6.7% between 2018 and 2023.
- Market production volume increased with a CAGR of 0.8% between 2018 and 2023, reaching a total of 18,13,097.1 thousand tons in 2023.
- The increase in real Gross Value Added (GVA) in industry annual growth has been a key driver for the steel market. In 2023, the Chinese real GVA in the industrial sector grew by 5.3%, according to the United Nations Statistics Division (UNSTAT). This rise in industrial activity led to higher steel consumption for machinery, equipment, and construction materials.

Scope

- Save time carrying out entry-level research by identifying the size, growth, and leading players in the global steel market
- Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the global steel market
- Leading company profiles reveal details of key steel market players' global operations and financial performance
- Add weight to presentations and pitches by understanding the future growth prospects of the global steel market with five year forecasts by both value and volume

Reasons to Buy

- What was the size of the global steel market by value in 2023?
- What will be the size of the global steel market in 2028?
- What factors are affecting the strength of competition in the global steel market?
- How has the market performed over the last five years?
- Who are the top competitors in the global steel market?
