### **Report description:**

Cooking ingredients and meals in Slovenia in 2024 is expected to register a healthy increase in current value sales and a slight increase in volume sales. Inflation has eased, though consumers continue to be highly price sensitive due to several years of price rises. This is leading to a degree of trading down and also gains for private label.

Euromonitor International's Cooking Ingredients and Meals in Slovenia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2028, clearly indicating how the market is expected to change.
