- Multiple User License (Global) €750.00

Report description:

In 2023, light vehicle sales declined due to excessive household debt, stringent credit terms and rising interest rates. Electric cars gained popularity and achieved outstanding growth in 2023. Chinese manufacturers have advantages in the EV sector and obtain the major market share. EVs are expected to continue their robust growth and contribute considerable value to Thailand's total light vehicle sales by 2028.

Euromonitor International's Mobility in Thailand report offers a comprehensive guide of the traditional and newly emerging mobility forms. The report is broken down into five key areas of industry research: automotive sales and ownership, electric and alternative fuel vehicles, shared mobility, public transport, and autonomous vehicles and connectivity. It provides the latest automotive sales and registration and shared mobility data over 2015-2020, allowing you to identify the sectors driving growth. It assesses the strategic analysis of key factors influencing the market - be they legislative, consumer lifestyle or economic. Forecasts in the reports are available to 2025.

Product coverage: Car Rental, Car Traffic Volume, Distances Travelled by Mode of Transport, Electric Charging Stations, Fuel Prices, Light Vehicle Sales, Light Vehicle Sales by Level of Autonomy (0-5), Shared Mobility, Vehicle Production, Vehicle Registrations, Vehicles in Use.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
