Report description:

In 2023, several major trends were impacting the packaging industry in Australia. This includes aligning solutions with the increasing emphasis on sustainable packaging materials, waste reduction and convenience. The rise of e-commerce in Australia is also driving significant demand for new packaging solutions. Manufacturers face the challenge of creating packaging that addresses these evolving requirements. In addition to being more environmentally friendly, packaging must also still be durable...

Euromonitor International's Packaging in Australia report offers insight into key trends and developments in the industry. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Packaging market;
- * Pinpoint growth sectors and identify factors driving change;
- * Understand the competitive environment, the market's major players and leading brands;
