Report description:

In 2023, packaging in Brazil was seeing growth and innovation across various industries, such as food and beverages, beauty and personal care, home care, and hot drinks. Food packaging continued to see flexible packaging dominating, with metal food cans also seeing something of a resurgence in recent years, driven by consumer preferences for products with longer shelf lives and convenient storage solutions. In beverages, the competition between metal beverage cans and glass bottles intensified,...

Euromonitor International's Packaging in Brazil report offers insight into key trends and developments in the industry. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?
