## Report description:

The rice, pasta, and noodles landscape saw stable retail volume sales in 2024. Unlike other packaged food products, that experienced significant corrections following a peak during COVID-19, pasta and noodles have maintained volume sales above pre-pandemic levels. This finding suggests that the home-cooking habits many consumers adopted during the pandemic, have persisted.

Euromonitor International's Rice, Pasta and Noodles in Norway report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2028, clearly indicating how the market is expected to change.
