Finally, the report includes recent news and deal activities undertaken by Chubu Electric Power Co., Inc. enhancing awareness of the company's business trends, growth perspectives, and more.

## Key Highlights

Chubu Electric Power Company, Incorporated, along with its subsidiaries, operates in the generation, transmission, distribution, and retail of electricity both in Japan and internationally. The company functions through three primary segments: JERA, Power Grid, and Miraiz. It produces electricity from a variety of sources including geothermal, nuclear, hydroelectric, wind, biomass, and solar energy. Additionally, Chubu Electric is involved in fuel upstream activities, power generation procurement, and the wholesale of electricity and gas. The company also provides power network services.

Beyond these core activities, Chubu Electric engages in construction for the development and maintenance of electric utility facilities and manufactures materials and machinery related to these utilities. The company is further involved in gas supply, real estate ventures, and life-related businesses focused on medical and health services. Established in 1889, Chubu Electric Power Company is headquartered in Nagoya, Japan.
