Atdbio Ltd, founded in 2005, is a prominent biotechnology company headquartered at United Kingdom. Specializing in peptide synthesis and the development of custom peptides, Atdbio operates primarily in the life sciences and pharmaceutical sectors. The company's core business segments include custom peptide synthesis, peptide libraries, and peptide-based assays. Atdbio's expertise in peptide synthesis is pivotal to its operations, offering high-quality custom peptides for research and development purposes.

The company provides tailored solutions for a diverse range of applications, including drug discovery, diagnostic assays, and academic research. Atdbio's peptide libraries and related products support scientific advancements and therapeutic innovations by enabling detailed studies of peptide interactions and functions. Operating globally, Atdbio serves a broad clientele including research institutions, biotechnology firms, and pharmaceutical companies. Its international reach is supported by a strong emphasis on quality and customer service, allowing the company to meet the needs of clients across various regions.

Through its commitment to innovation and excellence in peptide synthesis, Atdbio Ltd continues to contribute significantly to advancements in life sciences and biotechnology.
