Report description:

Despite a decline in total packaging retail volumes for alcoholic drinks in France in 2023, which was mirrored in glass bottles, this pack type maintained its position as the dominant packaging choice in the country, still accounting for more than three quarters of total packaging volumes in retail. The enduring popularity of this pack type can be attributed to several key factors, including its ability to preserve the taste and quality of the content, its association with premium and traditiona...

Euromonitor International's Alcoholic Drinks Packaging in France report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
