Report description:

Flexible plastic is the most widely used packaging choice for dairy products in Colombia in unit volume terms due to its cost-effectiveness, lightweight nature, convenient features, branding potential, protective barrier properties and innovative design possibilities. Flexible plastic caters to evolving consumer preferences for on-the-go consumption, while advancements in sustainable materials align with environmental concerns. In addition, flexible plastic's supply chain efficiency and adaptability...

Euromonitor International's Dairy Packaging in Colombia report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
