Report description:

Among the pack types used for coffee in Singapore are glass jars, folding cartons, flexible aluminium/plastic, flexible plastic and various metal containers. While flexible aluminium/plastic is, by some way, the most widely used in packaging unit volume terms, it has been losing share to other pack types, and particularly folding cartons, with this expected to continue over the forecast period. Folding cartons are gaining popularity as consumers increasingly prioritise sustainability and quality...

Euromonitor International's Hot Drinks Packaging in Singapore report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Coffee, Other Hot Drinks, Tea.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
