Report description:

The packaging market in Singapore is seeing significant developments, driven by consumer preferences for convenience, sustainability and product integrity. Flexible plastic, the dominant pack type in cheese, continues to gain share in this category, attributed to its versatility and superior product protection against moisture and air. This type of packaging not only maintains the freshness and quality of dairy products, but also incorporates user-friendly features like zip-press closures, enhan...

Euromonitor International's Packaging in Singapore report offers insight into key trends and developments in the industry. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Packaging market;
- * Pinpoint growth sectors and identify factors driving change;
