Report description:

While processed fruit and vegetables in Cameroon has expanded in retail volume terms in 2024, growth is anticipated to be weaker than in 2023. The downturn is primarily attributable to price hikes and the erosion of purchasing power amidst persistent inflationary pressures. In addition, sales continue to be limited by the overwhelming cultural preference for fresh fruit and vegetables. Although the latter have also recently become significantly more expensive, with prices now surpassing those of...

Euromonitor International's Processed Fruit and Vegetables in Cameroon report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
