Report description:

Overall, processed fruit and vegetables is expected to register a moderate increase in current value sales and also a slight increase in volume sales. The economy is struggling to recover from the upheaval caused by the war in nearby Ukraine. On a positive note, inflation has eased significantly. However, the standard VAT rate increased from 20% to 22% in January 2024. As such, with consumer confidence still at a low level, players support volume sales by offering frequent promotions and discounts.

Euromonitor International's Processed Fruit and Vegetables in Estonia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2028, clearly indicating how the market is expected to change.

Product coverage: Frozen Processed Fruit and Vegetables, Shelf Stable Fruit and Vegetables.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Processed Fruit and Vegetables market;
- * Pinpoint growth sectors and identify factors driving change;
