Report description:

Frozen processed vegetables and potatoes are projected to see healthy retail volume and very dynamic retail current value growth over 2024. The growth in retail volume sales remained restricted by the strong pressure on purchasing power, while high inflation spiked retail value growth. Nonetheless, demand for these options was stimulated by their long storage times, which made early or bulk purchases profitable in an inflationary environment where prices are rapidly and continuously increasing.

Euromonitor International's Processed Fruit and Vegetables in Turkey report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2028, clearly indicating how the market is expected to change.

Product coverage: Frozen Processed Fruit and Vegetables, Shelf Stable Fruit and Vegetables.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Processed Fruit and Vegetables market;
- * Pinpoint growth sectors and identify factors driving change;
- * Understand the competitive environment, the market's major players and leading brands;
- * Use five-year forecasts to assess how the market is predicted to develop.
