Report description:

Staple foods in Slovakia witnessed marginal volume sales decline in 2024, despite food inflation slowing and consumer purchasing power starting to recover. Nonetheless, rising commodity prices and soaring production costs continued to put pressure on retail prices and this restricted consumption of staples to an extent. In response to this development, price discounts and stronger promotions were used to attract Slovak consumers and stimulate sales. Most Slovak households looked at ways to econo...

Euromonitor International's Staple Foods in Slovakia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
