Report description:

Beer accounted for the most significant total packaging retail volumes in Poland in 2023. Within beer, glass bottles continued to hold the highest share of packaging volumes, and although it saw a decline in actual packaging volumes in 2023, it saw a rising share of the total. Glass bottles have a long-standing association with quality and tradition in the alcoholic drinks industry in Poland. They are favoured for their excellent barrier properties. Glass, especially brown or amber-coloured glas...
