Report description:

Beer accounted for the most significant total packaging retail volumes within alcoholic drinks in Spain in 2023, and continued to see growth in this year. In 2023, glass bottles gained share from metal beverage cans in beer, although the latter maintained marginally higher sales due to the lightweight and portable nature of cans, along with their durability and recyclability. Consumer preference is shifting towards premiumisation, with glass bottles perceived as offering a higher quality and mor...
