Report description:

Total dairy packaging volumes in Turkey maintained solid but slower growth than in previous years in 2023. After yoghurt, cow's milk remained the most significant category in terms of dairy packaging volumes, and continued to see growth in 2023. Shelf stable milk accounted for much higher unit volumes, and also continued to record growth. Within cow's milk, although brick liquid cartons remained the leading pack type in Turkey in 2023, gable top liquid cartons saw a slightly higher increase. Thi...

Euromonitor International's Dairy Packaging in Turkey report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
