### **Report description:**

The market for footwear in Malaysia is poised for continued growth in both volume and current value terms in 2024, albeit at a much slower rate than the previous two years. In 2022 and 2023, sales of both men's and women's footwear were boosted by the return of consumers to their physical offices, at least on a hybrid basis, which saw a return in demand for formal shoes. The return of consumers to shopping malls also boosted growth in the category, as browsing in-store encouraged replacement and...
