Report description:

The home care packaging market was showing signs of recovery in 2023, with retail unit volumes increasing by 3% on the previous year. However, this relatively modest growth comes after the significant decline of 25% seen in 2022, caused by the start of the war in Ukraine, which severely disrupted the market. This modest growth indicates a stabilisation in consumer demand and market conditions in 2023 following the steep decline recorded in the previous year. While home care packaging's retail vo...
