### **Report description:**

Flexible packaging continues to dominate the packaging unit volumes used in hot drinks in Indonesia, which is expected to remain the case over the forecast period. Flexible aluminium/plastic is the main pack type, followed by flexible plastic. Both were recording growth in their unit volumes in 2023 as the hot drinks market continued its recovery after the pandemic-induced slowdown. The success of flexible aluminium/plastic is down to its affordability, durability and convenience over alternativ...
