Report description:

In 2023, Spanish honey producers were facing challenges that included a low harvest yield due to drought and competition from low-quality imported honey, particularly from China. This has intensified cost and competitive pressures for local producers. Consequently, PET bottles were continuing to gain pack type share from glass jars as producers looked for cost-effective packaging solutions that maintain product quality. PET bottles are less expensive to manufacture than glass jars, and they are...

Euromonitor International's Sweet Spreads Packaging in Spain report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
