Report description:

Metal food cans account for the greatest pack type share in processed fruit and vegetables packaging in the UK. Metal food cans are used to package the largest category in unit volume terms, shelf stable fruit and vegetables, due to their excellent barrier properties. Shelf stable fruit and vegetables, by design, need to last for a long time. As a result, the packaging needs to provide considerable protection from not only the effects of the environment, such as air, moisture and sunlight, but a...

Euromonitor International's Processed Fruit and Vegetables Packaging in United Kingdom report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
