### **Report description:**

Sales of apparel and footwear in the United Arab Emirates remain positive in 2024, although growth is gradually slowing following the industry's robust performance in previous years. Several key macroeconomic factors continue to support growth locally: population growth, record-high tourist arrivals, and a high GDP per capita compared to other global markets. Premium and luxury items are performing well, fuelled by an influx of high net worth individuals (HNWIs) who are visiting or relocating to...
