Report description:

Total baby food packaging volumes saw growth in Italy in 2023, although unit volumes and growth were driven by prepared baby food and other baby food. Dried baby food saw a decline in packaging volumes in 2023, due to the growing trend amongst Italian parents to feed their babies and infants with fresh and natural foods. In dried baby food, the dominant pack type of flexible aluminium/plastic with folding carton primary packaging lost share to composite containers in 2023, with the latter seeing...
