Report description:

Total packaging unit volumes continued to see positive growth in baby food in Sweden in 2023. Swedish parents consider their children's nutrition to be a priority in their purchasing decisions, and put the needs of their children over their own. As such, they continue to purchase baby food, whether the country is experiencing a pandemic or high inflation. Aluminium/plastic pouches and folding cartons are popular in prepared baby food, and aluminium/plastic pouches are also prevalent in other bab...
