Report description:

Overall, baked goods in Uzbekistan in 2024 is expected to register double-digit current value percentage growth, though constant value is expected to be much more moderate, as high inflation still persists. In particular, flour prices continue to rise. That being said, volume growth is positive, partly supported by continuing population. Also, as consumers lead increasingly busy lives, households are baking bread much less and this supports volume growth.

Euromonitor International's Baked Goods in Uzbekistan report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2019-2023, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2028, clearly indicating how the market is expected to change.
