Report description:

In 2024, food preparation appliances in Japan is expected to experience a retail volume decline. The momentum of price increases has also weakened, suggesting that the category is also set to see a decline in retail current value terms. One significant factor contributing to this downturn is the reduction in cooking opportunities. In May 2023, the Japanese government reclassified COVID-19 from a high-risk Category 2 infectious disease to Category 5, aligning it with seasonal influenza. This shif...

Euromonitor International's Food Preparation Appliances in Japan report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth.
