Report description:

Total volume growth is expected for fruits in China in 2024, although this will be driven by foodservice and institutional demand, as retail volume sales are set to see a slight decline. Consumers have been spending less time eating at home in 2024, which is expected to result in a minor decrease in retail volume sales compared with 2023 as some sales switch to foodservice; however, overall retail volume demand remains far higher than the pre-pandemic (2019) level. Nevertheless, continued, altho...

Euromonitor International's Fruits in China report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data in volume terms 2019-2023, allowing you to identify the sectors driving growth. It offers strategic analysis of key factors influencing the market - be they new product developments, consumption patterns and distribution data. Forecasts to 2028 illustrate how the market is set to change.
