### **Report description:**

Total meals and soups packaging volumes in Italy increased for another consecutive year in 2023. The consumption of ready meals continued to rise in this year, particularly in the chilled and frozen categories, driven by various factors, which drove growth in the associated packaging volumes. Urbanisation, increased time spent away from home due to work or study commitments post-pandemic, and the desire for quick, convenient meal solutions without compromising on quality or taste were key growth...
