Report description:

In recent years, Japan has experienced a significant shift in packaging trends, driven by growing environmental awareness and a focus on sustainability. This shift has led to efforts to reduce the weight of containers, simplify packaging materials and prioritise recyclable options. In addition, there has been an emphasis on creating high-performance products that balance safety, convenience and eco-friendliness. Consumers in Japan are increasingly conscious of the environmental impact of packagi...

Euromonitor International's Packaging in Japan report offers insight into key trends and developments in the industry. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Packaging market;
- * Pinpoint growth sectors and identify factors driving change;
- * Understand the competitive environment, the market's major players and leading brands;
