

## **U.S. PET-CT Scanner Market Opportunity, Growth Drivers, Industry Trend Analysis, and Forecast 2024 - 2032**

Market Report | 2024-10-31 | 112 pages | Global Market Insights

### **AVAILABLE LICENSES:**

- Single User \$4850.00
- Multi User \$5350.00
- Enterprise User \$8350.00

### **Report description:**

U.S. PET-CT Scanner Market, valued at around USD 864 million in 2023, is expected to grow at a compound annual growth rate (CAGR) of 5.9% from 2024 to 2032. PET-CT scanners integrate positron emission tomography (PET) with computed tomography (CT), merging functional and anatomical imaging to enhance diagnostic accuracy. PET scans highlight cellular metabolic activity through radioactive tracers, while CT scans capture structural details, a combination especially beneficial for oncology, cardiology, and neurology. Technological advancements, particularly digital PET scanners with improved sensitivity and resolution, are key growth drivers. Continuous innovations help boost imaging quality and reduce scan times, aligning with the U.S. healthcare sector's focus on personalized medicine and precision diagnostics.

Given the country's significant cancer incidence rates-projected to reach over two million new cases in 2024-the demand for accurate diagnostic tools like PET-CT scanners remains strong. Collaborations between tech firms and healthcare providers are also advancing PET-CT technology, including the development of new radiotracers to target specific diseases more effectively. Digital PET-CT scanners have become the market's dominant segment, driven by high-resolution imaging and operational efficiencies such as shorter scan times and reduced radiation exposure. This shift is advantageous to healthcare facilities striving to manage costs while delivering high-quality care, further supporting digital systems' adoption.

The U.S. market is segmented by modality into fixed and mobile PET-CT scanners. Mobile units are experiencing notable demand, particularly in underserved regions, by making advanced diagnostic imaging accessible to a broader population. This mobile approach aligns with the growing focus on value-based, patient-centered healthcare, as it enables cost-effective diagnostic services without the need for permanent facilities. Mobile units are also gaining popularity due to improved image quality, reduced scan times, and lower radiation exposure.

The market is segmented by slice count into high, medium, and low-slice scanners, with medium-slice systems (16-64 slices) leading in terms of market share. These scanners balance image quality and affordability, which appeals to smaller healthcare

facilities. The oncology application segment, representing the largest share of the market, benefits from PET-CT's critical role in diagnosing and monitoring cancer. Hospitals remain the primary end-users, leveraging PET-CT scanners for their advanced diagnostic capabilities and potential to support personalized treatment. Regionally, the Northeast leads the market, driven by a concentration of healthcare institutions and research centers, which collectively fuel demand for PET-CT imaging. With the rising demand for early and accurate diagnosis, the PET-CT scanner market in the U.S. is positioned for robust growth across all segments.

## **Table of Contents:**

### Report Content

#### Chapter 1 Methodology & Scope

##### 1.1 Market scope & definitions

##### 1.2 Research design

###### 1.2.1 Research approach

###### 1.2.2 Data collection methods

##### 1.3 Base estimates & calculations

###### 1.3.1 Base year calculation

###### 1.3.2 Key trends for market estimation

##### 1.4 Forecast model

##### 1.5 Primary research and validation

###### 1.5.1 Primary sources

###### 1.5.2 Data mining sources

#### Chapter 2 Executive Summary

##### 2.1 Industry 360 synopsis

#### Chapter 3 Industry Insights

##### 3.1 Industry ecosystem analysis

##### 3.2 Industry impact forces

###### 3.2.1 Growth drivers

###### 3.2.1.1 Increasing cancer incidence

###### 3.2.1.2 Rising preference for minimally invasive diagnostic procedures

###### 3.2.1.3 Technological advancements

###### 3.2.1.4 Growing focus on personalized medicine

###### 3.2.2 Industry pitfalls & challenges

###### 3.2.2.1 High initial costs and continuous maintenance expenditures

##### 3.3 Growth potential analysis

##### 3.4 Technology landscape

##### 3.5 Regulatory landscape

##### 3.6 Future market trends

##### 3.7 Porter's analysis

##### 3.8 PESTEL analysis

#### Chapter 4 Competitive Landscape, 2023

##### 4.1 Introduction

##### 4.2 Company matrix analysis

##### 4.3 Competitive analysis of major market players

##### 4.4 Competitive positioning matrix

##### 4.5 Strategy dashboard

#### Chapter 5 Market Estimates and Forecast, By Type, 2021 - 2032 (\$ Mn)

##### 5.1 Key trends

**Scotts International. EU Vat number: PL 6772247784**

tel. 0048 603 394 346 e-mail: [support@scotts-international.com](mailto:support@scotts-international.com)

[www.scotts-international.com](http://www.scotts-international.com)

5.2 Digital	
5.3 Analog	
Chapter 6 Market Estimates and Forecast, By Modality, 2021 - 2032 (\$ Mn)	
6.1 Key trends	
6.2 Fixed	
6.3 Mobile	
Chapter 7 Market Estimates and Forecast, By Slice Count, 2021 - 2032 (\$ Mn)	
7.1 Key trends	
7.2 High slice	
7.3 Medium slice	
7.4 Low slice	
Chapter 8 Market Estimates and Forecast, By Application, 2021 - 2032 (\$ Mn)	
8.1 Key trends	
8.2 Oncology	
8.3 Cardiology	
8.4 Neurology	
8.5 Other applications	
Chapter 9 Market Estimates and Forecast, By End Use, 2021 - 2032 (\$ Mn)	
9.1 Key trends	
9.2 Hospitals	
9.3 Diagnostic centers	
9.4 Ambulatory surgical centers	
9.5 Research institutes	
9.6 Other end users	
Chapter 10 Market Estimates and Forecast, By Zone, 2021 - 2032 (\$ Mn)	
10.1 Key trends	
10.2 East North Central	
10.3 West South Central	
10.4 South Atlantic	
10.5 Northeast	
10.6 East South Central	
10.7 West North Central	
10.8 Pacific Central	
10.9 Mountain States	
Chapter 11 Company Profiles	
11.1 Bruker Corporation	
11.2 Canon	
11.3 GE HealthCare	
11.4 Koninklijke Philips	
11.5 Mediso	
11.6 MinFound Medical Systems	
11.7 MR Solutions	
11.8 Neusoft Medical Systems	
11.9 Siemens Healthineers	
11.10 Shanghai United Imaging Healthcare	
11.11 SOFIE
