Report description:

Reduced sugar carbonates are expected to register the highest volume growth in 2024 as the rising health and wellness trend in the country is influencing consumer demand. Growth is also driven by the niche status of the category as the share of total volume sales of carbonates generated by reduced sugar varieties remains marginal. An increasing number of consumers are becoming aware of the potential health risks associated with excessive sugar consumption; however, leading carbonates players hav...

Euromonitor International's Carbonates in Algeria report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2019-2023), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they legislative, distribution, packaging or pricing issues. Forecasts to 2028 illustrate how the market is set to change.
