### **Report description:**

Childrenswear in Norway is expected to display a modest volume decline in 2024, although this reflects a slight improvement on the previous year. Parents, in particular mothers, often shop for their children at the same time as buying for themselves. The category received an upswing in performance in 2021 with the return towards normal lifestyles and the shift back towards in-store shopping. Like the overall apparel category, inflation and rising unit prices boosted value sales in 2023. While ch...
