Report description:

Commodity price rises for coffee in Slovakia in 2024, in combination with rising production and logistics costs, continued to push up retail selling prices. Off-trade and total volume sales of coffee continued to drop, with the ongoing recovery of on-trade volume sales unable to offset the downward retail trajectory. On the other hand, rising prices continued to push healthy off-trade current value growth at the end of the review period. The category with by far the highest average unit price, b...
